

The fund is a class fund of STANLIB Offshore Unit Trusts, which invests exclusively in the STANLIB Funds Limited - STANLIB Multi-Manager Global Equity Fund.

### Investment description

The Fund adopts a multi-managed approach to investing and blends different skilled and experienced active equity managers and strategies with some passive and risk premium strategies.

This is a global-only US dollar denominated portfolio which invests in equities across various geographies, sectors and capitalisation sizes.

The STANLIB Multi Manager Global Equity Fund invests as a feeder fund into a class fund of STANLIB Funds Limited.

### Investment description

- Who are looking to add exposure to global equity markets.
- Who understand that the high exposure to growth assets and foreign currency exposure comes with higher volatility.
- Who understand that the Fund may underperform the market significantly in the short term in pursuit of long term gains.
- Who typically have an investment horizon of at least seven years.

### Statutory disclosure and general terms & conditions

Collective Investment Schemes in securities are generally medium to long-term investments. The value of participatory interests may go down as well as up and investors may get back less cash than originally invested. Past performance is not necessarily a guide to the future. An investment in the participations of a collective investment scheme in securities is not the same as a deposit with a banking institution. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Participatory interest prices are calculated on a net asset value basis, which is the total value of all assets less liabilities in the Class Funds including any provisions made for any purchase, fiscal or other charges that would have been incurred had all the assets of the relevant class fund been bought or sold at that time, divided by the number of participatory interests in issue. Please refer to the prospectus for more details on the charges and expenses that may be recovered from the Class Funds. Participatory interests are priced daily using the forward pricing method. The Class Funds may borrow up to 10% of the market value of the Class Funds to bridge insufficient liquidity as a result of the redemption of participatory interests. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from STANLIB Fund Managers Jersey Limited, ("the Manager"). The Class Funds of the STANLIB Offshore Unit Trusts scheme, are Feeder Fund which only invest in the participatory interests of a single Class Fund of a collective investment scheme. In addition to the annual management charge, other fees are incurred by the trust (trustee, custodian and general expenses). There is no sales tax applicable in Jersey. Commission and incentives may be paid and if so, are included in the overall costs. The Class Funds of STANLIB Offshore Unit Trusts scheme are accumulation Class Funds and do not distribute income. Please refer to the prospectus of this scheme for more details, a copy of which is available on request from STANLIB Collective Investments (RF) Pty. Limited, ("STANLIB"), the address of which is 17 Melrose Boulevard, Melrose Arch, 2196, South Africa. The registered office of the Manager is Standard Bank House, 47-49 La Motte Street, St Helier, Jersey, Channel Islands. The Trustee is Apex Financial Services (Corporate) Limited. The representative agreement exists between STANLIB Collective Investment (RF) Pty. Limited and STANLIB Fund Managers Jersey Limited. The Manager and Trustee are approved by the Jersey Financial Services Commission to conduct Fund services business. The Trust is regulated as a Collective Investment Fund by the Jersey Financial Services Commission. Figures quoted are from Morningstar for a lump sum investment using NAV-NAV prices. Liberty is a member of the Association of Savings and Investment of South Africa. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Manager has a right to close the portfolio to new investors in order to manage the portfolio more efficiently in accordance with its mandate.

### Additional information

Additional information about this produce, including brochures and application forms can be obtained from the Manager, free of charge and from the website [www.stanlib.com](http://www.stanlib.com).

The prices of unit trust funds are calculated and published on each working day. These prices are available on the Manager's website ([www.stanlib.com](http://www.stanlib.com)) and in the South African printed news media.

### Performance information on monthly factsheet

Performance is calculated by STANLIB Multi-Manager a division of STANLIB Asset Management (Pty) Ltd at month end for a lump sum investment using net asset value (NAV) prices with income reinvestments done on the ex-dividend date. All underlying price and distribution data is sourced from Morningstar. Performance figures are quoted after the deduction of all costs including manager fees, and trading costs incurred within the Fund. Note that individual investor performance may differ as a result of actual investment date, the date of reinvestment of distributions and dividend withholding tax, where applicable. Annualised performance figures represent the weighted average compound growth rate over the performance period measured. Past investment returns are not indicative of future returns and no guarantee is provided with respect to capital or return of the Fund.
