STANLIB

MULTI-MANAGER

ETHICAL INVESTING IS AN INVESTMENT APPROACH THAT ALIGNS AN INDIVIDUAL'S MORAL BELIEFS WITH THE INVESTMENT PHILOSOPHY OF A FUND.

Islamic Finance is a growing subset of ethical investing alongside Environmental, Social and Governance (ESG) and Socially Responsible Investing (SRI). The principles driving the three investment styles often overlap and complement each other because at the cornerstone of all three, is the long-term sustainability of investors' assets and the economy.

Islamic funds invest in accordance to Shari'ah principles

Shari'ah funds differ from other ethical investments in that they also exclude debt-bearing instruments. Investors therefore inherently avoid the risks which result from companies taking excessive leverage. Shari'ah funds also offer an additional layer of governance in that investments are mandated to appoint an independent Shari'ah Advisory Committee (formerly known as "Shari'ah Supervisory Board") that ensures that each investment decision complies with Islamic principles; a practice which promotes fairness and transparency.

STANLIB Multi-Manager Shari'ah Balanced Fund of Funds

The STANLIB Multi-Manager Shari'ah Balanced Fund of Funds is approved by the STANLIB Multi-Manager Shari'ah Advisory Committee. The Fund's construct consists of both specialist and balanced managers making it the first of its kind in South Africa. Through its construction framework, investors benefit from superior diversification across multiple asset classes domestically and globally, multiple styles and multiple managers.

The underlying managers are also required to invest in accordance with the Shari'ah principles, i.e. are not permitted to invest in interest-bearing instruments or companies whose core business is alcohol, pork, tobacco, gambling, conventional interest-based financial services, or weapons and defence.

Investment objective

The objective of the Fund is to provide investors with a Shari'ah compliant solution that combines prudent risk management, market outperformance and Shari'ah principles, while also complying with Regulation 28 of the Pension Funds Act.

Investment mandate

The Fund is a multi-managed fund of funds. STANLIB Multi-Manager selects managers from the Shari'ah compliant universe, combining them into a well-diversified Shari'ah compliant fund.

The STANLIB Multi-Manager Shari'ah Balanced Fund of Funds aims to outperform the average return of Shari'ah Balanced peers, but remain competitive in the applicable ASISA SA Multi-Asset High Equity Category. We do this by blending skilful managers to create natural balance within a portfolio relative to its stated objective.

Our aim is to build a portfolio with the highest probability of outperforming its objective. Ultimately, skill and diversity are key ingredients in the blending process of a multi-managed balanced portfolio.

Who would invest in this Fund?

- Individuals and businesses requiring an ethical investment that complies with Shari'ah principles whilst offering excellent medium- to long-term growth without the high volatility that may be experienced in equity funds
- Company pension funds requiring a Shari'ah compliant or ethical investment solution
