

## Investment Description

The Fund invests in South African interest bearing securities, consisting of a wide variety of bonds, including but not limited to government bonds with varying sensitivity to interest rates at various terms (collectively known as duration), listed and unlisted corporate bonds, inflation linked bonds as well as a component of cash to manage liquidity requirements.

The Fund aims to deliver returns ahead of the JSE All Bond Index over time.

## Suitable Investors

- Who wish to diversify single manager risk
- Who seek a bond building block for a diversified multi-asset class portfolio
- Who seek a steady long-term income stream and some capital growth
- Who understand that bonds have similar risks associated with high levels of inflation and interest rates.
- Who understand that bonds also entail a portion of credit risk.

## Risk Rating

■ Income assets ■ Growth assets  
Please refer to the "Information to consider before investing" section on page 2 for further risk information.

## FUND INFORMATION TO BE CONSIDERED BEFORE INVESTING

Collective Investment Schemes should be considered a medium to long term investments. The value of units (participatory interests) may go down as well as up and past performance is not necessarily a guide to the future performance. The Fund is traded at ruling prices using forward pricing and can engage in borrowing up to 10% of the market value of the portfolio to bridge insufficient liquidity as a result of the redemption of participatory interests and may engage in scrip lending. The yield on the Fund is calculated monthly based on the actual distributions declared in the last 12 months divided by the average daily net asset value, expressed as a nominal annual rate. It is provided to give an approximate indication of the achievable yield for an investment made at the reporting date. A schedule of fees and charges and maximum commissions is available on request from STANLIB Collective Investments (RF) Pty Ltd (the Manco). Commission and incentives may be paid and if so, would be included in the overall costs. Liberty is a full member of the Association for Savings and Investments of South Africa (ASISA). The Manco is a member of the Liberty Group of Companies. The manager does not provide guarantee in respect of capital or return of portfolio.

## PERFORMANCE DISCLOSURE

Performance is calculated by STANLIB Multi-Manager (Pty) Ltd as at month end for a lump sum investment using net asset value (NAV) prices with income reinvestments done on the ex-dividend date. All underlying price and distribution data is sourced from Morningstar. Performance figures are quoted after the deduction of all costs including manager fees, and trading costs incurred within the Fund. Note that individual investor performance may differ as a result of actual investment date, the date of reinvestment of distributions and dividend withholding tax, where applicable. Annualised performance figures represent the weighted average compound growth rate over the performance period measured. Past investment returns are not indicative of future returns and no guarantee is provided with respect to capital or return of the Fund.
