

## Investment description

The Fund adopts a multi-managed approach to investing and blends different skilled and experienced active equity managers and strategies (with some passive and risk premium strategies). This is a global-only ZAR denominated portfolio and invests in equities (all industries and sectors, and all capitalisations sizes) listed in global equity markets. The Fund aims to deliver investors with high capital growth over the long-term. The Fund's objective is to outperform its global equity benchmark over the long-term.

## Suitable investors

- Who wish to diversify single manager risk;
- Who are looking to add exposure to global equity markets;
- Who understand that the high exposure to growth assets and foreign currency exposure comes with higher volatility;
- Who understand that the Fund may underperform the market significantly in the short term in pursuit of long-term gains;
- Who typically have an investment horizon of at least seven years.
